Skills

- **Languages:** JavaScript, TypeScript, C, C++, HTML, CSS, SQL
- **Cloud & DevOps:** AWS (EC2, S3, Amplify, Auto Scaling, EBS, IAM, AMI), Firebase, Vercel, Render, Docker
- **Frameworks & Libraries:** React Native, React JS, NextJS, Expo, NodeJS, Express, Redux Toolkit, Tailwind CSS, Mongoose, JWT, WebSockets, EJS, jQuery, Framer Motion, Native Wind, MobX, i18Next, OAuth
- **Databases & Platforms:** MySQL, MongoDB, PostgreSQL, Linux, Cloudinary, Elevenlabs, OpenAI, Twilio
- **Tools:** Git, GitHub, GitLab, VS Code, Postman, NPM, Babel, Replit, Nginx, CI/CD, GitHub Actions
- **System Design & Architecture:** High-Level System Design, Load Balancing, Redis (Caching), BullMQ (Queue), API Design, Scalability
- **Soft Skills & Methodologies:** Problem-solving, Team Collaboration, Project Management

Professional Experience

- **Software Engineer, Vidsdrama, Delhi** Feb 2024 – Present
Developed and delivered **high-performance cross-platform mobile applications** using **React Native (Expo)** with smooth UI/UX and optimized performance. Built scalable **mobile-first architectures** with seamless integration of **REST APIs, authentication systems, and real-time features**.
 - Implemented **real-time functionalities** using **WebSockets/Socket.io** (live chat, notifications, activity tracking) within mobile apps.
 - Collaborated with backend teams to integrate **Node.js & MongoDB (MERN stack)** services into mobile applications.
 - Optimized app performance, reduced load time, and ensured smooth user experience across Android devices.
 - Contributed to full product lifecycle: **development, testing, deployment, and optimization**.
- **Software Engineer, Sparklineo Technologies, Delhi** Jan 2023 – Feb 2024
Worked on web applications, AI agents, chatbots, SIP calling systems, and Android apps using React.js, Next.js, React Native, Node.js, REST APIs, WebSockets, MongoDB, and Docker, with deployments on AWS, Firebase, and Vercel.
 - Designed and deployed AI-powered Voice, Sales, Chatbot & Ticket Resolution Agents by integrating OpenAI APIs, ElevenLabs TTS, Twilio Voice/SMS, improving workflow automation, and reducing response latency by 40%.
 - Implemented real-time features using WebSockets/Socket.io (live chat, notifications, activity updates) and supported SIP calling systems, while leading a 2-member team to scale an admin panel used by 1000+ users, deployed on AWS, Firebase, Vercel, using Docker, Git/GitHub, Postman.
- **Full Stack Developer Intern, Cognifyz Technologies** Oct 2022 – Dec 2022
Built full-stack features with React.js, Node.js, Express.js, Framer Motion; used MySQL and MongoDB.
 - Improved API efficiency and UI responsiveness across modules.
- **Full Stack Web Developer Intern, Medwas** July 2022 – Oct 2022
Developed UI and backend using React.js, Express.js, Redux, HTML/CSS, and JWT.

Projects

- **Gourministeriet** – Developed a **React Native mobile app** for learning street food cooking with interactive recipes and a smooth user experience.
Tech stack: React Native (Expo), React Navigation, Native Wind, REST APIs, React Native Reanimated, JavaScript, TypeScript, JWT
Web: <https://gourministeriet.dk/>
- **SecuFi** – Built a **secure financial management mobile app** for asset & liability tracking with unified portfolio view and digital will creation.
Tech stack: React Native, Native Wind, Next.js, REST APIs, WebSocket, JavaScript, TypeScript, i18Next, MobX, Meta SDK
Web: <https://secufi.in>
- **GetCore** – Engineered a **scalable loan management admin panel** to handle users, loan lifecycle, OTP verification, and operational workflows.
Tech stack: NextJS, React.js, Tailwind CSS, Node.js, Express, MongoDB, REST APIs, JWT, ThreeJS, Framer Motion
Web: <https://getcore.in>

Certifications & Achievements

- Full Stack Web Development – Udemy
- Front-End Development (React) – HackerRank
- JavaScript (Basic & Intermediate) – HackerRank
- React (Advanced) – HackerRank

Education

- Bachelor of Computer Application, Jamia Hamdard, New Delhi, India

Aug 2020 – May 2023
