

Yogita Mishra

Aspiring Software Engineer

Detailed-oriented QA Engineer with hands-on-experience testing IoT and hardware-integrated applications. Skilled in validating firmware compatibility, API performance, and end-to-end functionality across mobile, web, and embedded environments. Known for identifying critical defects, ensuring firmware stability, and improving testing efficiency through structured QA processes and cross-team collaboration.

WORK EXPERIENCE

QA Engineer

Wizcart

03/2026 - Present

Noida

Achievements/Tasks

- Designed and executed **end-to-end test cases** for web/mobile apps
- Conducted **data validation** using **SQL in pgAdmin** to cross-check API/UI outputs with **RDS (PostgreSQL)** source-of-truth
- Logged and triaged defects in **JIRA/Azure DevOps** with reproducible steps, impact assessment, and environment details
- Collaborated with Product/BA to **derive test scenarios from user stories & acceptance criteria**; created **traceability** from requirements
- Used **AWS-hosted environments**: validated builds on **EC2**, verified user content stored on **S3**, checked DB records in **RDS (PostgreSQL)**, and captured logs/metrics via **CloudWatch** to support root-cause analysis.

QA Engineer

Pentair

11/2023 - 10/2025

Noida

Achievements/Tasks

- Managed UI, backend, and firmware testing and designed detailed test cases and validated data accuracy across modules.
- Identified & documented critical defects, performed root-cause analysis & collaborated with cross-functional teams
- Delivered post-validation feature demos to the Business Unit(BU), improving stakeholder confidence in releases.
- Collaborated with UAT testers and MS team to ensure smooth QA-UAT transitions post EU-> NA migration.
- Monitored cloud data for accuracy, ensuring consistent and reliable device communication.
- Engaged with clients and stakeholders to gather analyze business requirements.

EDUCATION

B.TECH in Computer Science and Engineering

Sree Narayana Gurukulam College of Engineering, Kerala

High School

Kendriya Vidyalaya, Pattom, Kerala

CERTIFICATION

AWS Cloud Practitioner

API Testing with Postman

Agile Testing(Adaptive Methodologies)

Trained in Secure Coding Best Practices

Workshop in IoT by IEEE

Workshop on PHP

Python: Structuring Machine Learning Projects

ACHIEVEMENTS

Recognized by Business Units and senior management for exceptional testing quality and proactive problem solving.

Delivered multiple releases ahead of scheduling through effective test planning and collaborations.

SKILLS

Testing Tools

Postman, Katalon Studio, Jira, AWS, IoT

Methodologies

Agile/Scrum, Defect Life Cycle, Root Cause Analysis, Test Case Design

Technical Skills

Python, SQL, Secure Coding Practices, Java

Testing Types

Regression, Sanity, Functional, API, Firmware, Usability, Cloud and Device Testing

Soft Skills

Teamwork, Active Listening, Punctual, Leadership, Curiosity, Management

LANGUAGES

English

Professional Working Proficiency

Hindi

Native or Bilingual Proficiency

EXTRA-CURRICULAR

Class Representative

Business English Communication
